## EDUCATION

---

- **Columbia University** New York, NY  
*Master of Science in Computer Science* Sep 2018 – Dec 2019
  - **Course Assistant:** Programming Languages (JavaScript), Fall 2018
- **Guru Gobind Singh Indraprastha University** New Delhi, IN  
*Bachelor of Technology in Information Technology; GPA: 3.8/4.0; Institute Rank: 1* Aug 2013 – May 2017
  - **Courses:** Web Engineering, Software Engineering, Algorithm and Design Analysis

## TECHNICAL SKILLS

---

- **Web Development:** JS, React.js, React Native, Django, Node.js, jQuery, AJAX, Bootstrap, CSS
- **Programming Languages/Others:** Python, C/C++, C#, Java, SQL

## EXPERIENCE

---

- **All India Council for Technical Education (AICTE), Govt. of India** New Delhi, IN  
*Research and Development Intern* Oct 2017 - Mar 2018
  - Implemented the winning project at Smart India Hackathon 2017, *Prediction of Admission & Jobs in Engineering & Technology/Management/Pharmacy* under *Dr. N.H. Siddalingaswamy (Director, AICTE)*
  - Analyzed Indian institutes' datasets and employment statistics to find correlation between them
  - Researched and compared different accreditation mechanisms with the pre-existing AICTE approval handbook
  - Developed dynamic web-based analytical dashboards to aid AICTE in granting course approvals to higher educational institutions and prediction of jobs
- **Snapdeal** Gurgaon, IN  
*Software Engineering Intern* Jun 2016 - Aug 2016
  - Optimized the e-commerce website's page load performance (Time To First Byte) by 7% (100ms)
  - Integrated Olark Chat, a third-party chat application, for first time users along with activity tracking to report on all the user's properties across the website user flow using JS and AJAX
  - Researched and presented the idea for *Lite Website* with effective user bandwidth detection
  - Wrote Python scripts to organize resources and optimize build times

## PROJECTS

---

- **Mobile Flashcards: An iOS Quiz Application using React Native** Dec 2017 - Jan 2018
  - This app allows users to study and create a collection of different categories of flashcards called "decks", add flashcards, and then take quizzes on those decks
  - Leveraged React Native to manage infinite lists, routing and user input
- **Readable: A Web Application using React JS and Redux** Nov 2017 - Dec 2017
  - Built a social content and discussion web application that allows users to submit content, vote and comment
  - Leveraged React to build a dynamic user interface, as well as Redux to manage global application state
- **Machine Learning Prediction Engine API** Feb 2017 - Apr 2017
  - An interactive web application was built on top of a Django based RESTFUL API which can get remote predictions from a machine learning model integrated at the backend
- **Freeword: A Web Application using Django, JS and Bootstrap** Oct 2016 - Jan 2017
  - Built a question-answer web application similar to Quora as a platform where users could express their opinions freely and anonymously

## AWARDS/HONORS

---

- **Winner, Smart India Hackathon 2017**, where over 7200+ teams pan India competed in a 36-hour Hackathon organized by the Govt. of India
- **Honorable Mention at ACM-ICPC** (Association for Computing Machinery – International Collegiate Programming Contest) National Regionals 2015, Kolkata after qualifying amongst the top 60 institutes of India
